FE Technologies

The Anytime Library has been designed by the innovative team at FE Technologies to provide an intuitive solution to unattended 24/7 lending.

By using the latest proprietary technology combined with seamless software and lending rule integration, the Anytime Library adds the extra functionality that your patrons deserve.

Use it in any crowded public space to provide 24/7 lending and you can enjoy higher footfall than ever before:

- Holds up to 352 books so you can constantly lend out your most popular titles
- Secure panoramic carousel provides a flawless browsing experience for every patron
- Intuitive touchscreen control makes searching and borrowing as easy as it should be
- Easily holds books up to 7.85" x 11.4" that are 1.25" thick – covers all main sizes
- Comes with a whole host of extra features which make it so much more than a member of staff that never takes a break

What makes the Anytime Library truly unique?

The Anytime Library is the culmination of years of design, development, and refinement from the leaders in smart library technology:

Membership Scanner

provides secure access to every patron

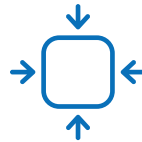

Optional Security Camera

provides the peace of mind that makes all the difference

Single-Action Dispenser

is made with just one moving part for silent operation

Compact Design

uses the minimum of floorspace while attracting new patrons

Durable Design

keeps the need for maintenance to an absolute minimum

Smart Returns

make sure every book is placed in the ideal slot without staff input

Purpose Built Software

follows all borrowing and lending rules from day one

LED Display Screen

can show moving messages with a few quick clicks

Integrated WiFi Hotspot

helps you improve coverage from the moment it arrives

Detailed Owner Reports

provide insights that help you add or remove titles to maximize patron activity

Offline Operation

ensures that should the worst happen, you're always open

With the future of library technology already waiting for you, all you have to do is connect and add it to your setup. Just what you need to hear when it's time to attract the attention of every patron, 24/7.
