Ceiling Sensor

Our Ceiling Sensor is a ceiling mounted library people counter that can be positioned at the entrance of any library. The sensor uses best Swiss Technology, to capture 3D image and uses artificial intelligence to detect library patrons. Real time statistics of traffic numbers and direction are displayed on our Library Live Dashboard.

The Ceiling Sensor can used in conjunction with existing in gate people counters to give you accurate data about users entering your library.

Power Over Ethernet

This sensor is a power over ethernet device (POE) and requires a POE network from your router or switch. (You can add a PoE switch to an existing network.)

Coverage

The sensor can monitor traffic from multiple points within in the covered area. The ceiling sensor coverage increases as the installation height increases.

Privacy

The Ceiling Sensor is a GDPR-compliant device. It will help you comply with regulations that protect patron privacy.

Live Dashboard

Our Ceiling Sensor is the first in-ceiling occupancy sensor to provide real time data that can be consolidated with existing Gate Counters and viewed in our Library Live Dashboard. This allows you to view accurate occupancy reports as well as simple in and out counts..

Artificial Intelligence

Ceiling Sensor uses AI to convert 3D images into accurate data of patrons entering and leaving the library. The guarantees accuracy; it detects people with 99% accuracy.

Intelligent Footfall Counter

Track patron numbers entering and exiting your library for unique insights into your busiest borrowing and return times.

Sensor Coverage

Ceiling Height	Sensor Coverage
8'2"	7'5" x 4'9"
9'10"	11'7" x 6'11"
11'6"	15'5" x 9'8"
13'1"	19'2" x 12'1"
14'9"	23'0" x 14'6"
16'5"	23'0" x 16'5"
18'1"	23'0" x 16'5"
19'8"	23'0" x 16'5"

Benefits for the library

- Accurate people counter statistics
- People counting solution when no security gates are present

Keep your library running safely and smoothly by contacting FE Technologies today. We can gladly set up a safe demonstration of our products at your premises, arrange a tour of our site, or a visit to one of our up and running RFID libraries.
