Our Features - Everything our lockers have to offer

FE Technologies External Lockers give libraries the ability to provide patrons with 24/7 access to pickup holds, browse & borrow and return items. The Lockers are designed for indoor and outdoor use so can be situated at sites convenient to the community. Items in the locker automatically have a book jacket from google books or your book jacket provider attached, so patrons can easily identify items.

Software

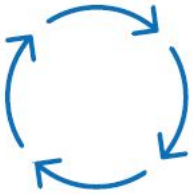
The multiple holds pickup and browse and borrow workflows from the Anytime Self Service Software allows the patron to access items at a time and place that's convenient to them.

Extra Functionality

Librarians may load books in the External Lockers when space is available, and these can be borrowed by any patron. An External Locker helps increase circulation with this dual function.

Reporting

Reports can be accessed via Management Console for reporting requirements. Reports will show transaction history for the unit by the hour, day week and month.



Circulation

Increase access to your collection 24/7, and make it easier than ever to pick up holds and browse & borrow them.

Customize

With our custom lockers, you can personalize the colours and branding to suit your library.

Management

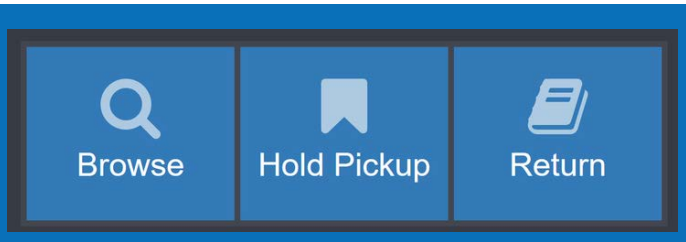
Library staff will appreciate having quick and easy management tools that include reports to use with the lockers.

ADA Compliant

The Anytime Self Service Software allow library staff to assign specific locker unit that are easy access by patron on wheel chair.

Multiple Items per Locker

Multiple holds for the one patron in one locker makes holds management easy for any busy library.
By selecting "Load Mode" from the Administration screen, library staff can select locker size and load the unit, one item at a time .



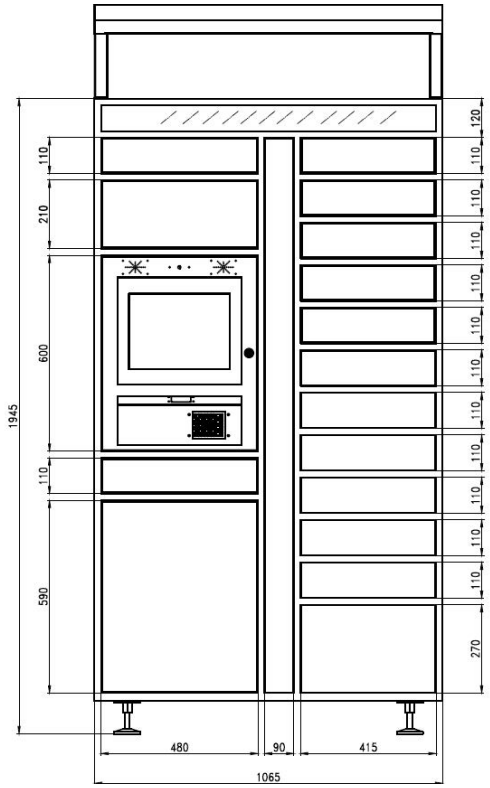
Anytime Self Service Software - give libraries the ability to provide patrons with 24/7 access to multiple pickup holds, browse & borrow and return items.

Clean, classic design and superior durability make this outdoor book locker the perfect solution for library use. Constructed of solid steel and featuring a rust-resistant finish, this lockable box features unobstructed access to your items.

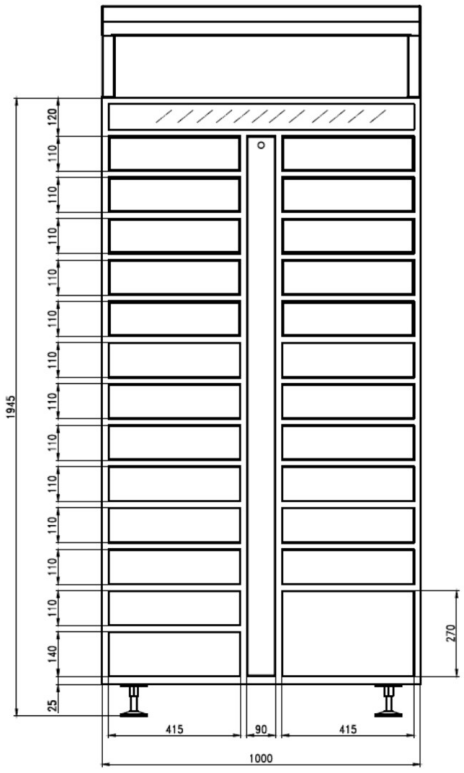
Construction
Our lockers are extra sturdy and weather resistant. The metal base of the locker is made of stainless steel to reduce rusting. The lockers are also designed to be water resistant with gutter and shelf in each locker.

Service
These lockers are made for easy service. The lockers are manufactured for easy service with access made from the front.

Console Unit
13 lockers (2 are reserved for returns)



Extension Unit
25 lockers



FE Technologies

We'd love to discuss our RFID library solutions with your team. We can gladly set up a demonstration of our products at your premises, arrange a tour of our site, or a visit to one of our up and running RFID libraries.
